ITALIAN PAVILION

This edition featured the participation of an Italian Pavilion, made up of leading companies that showcased innovative solutions in sustainability and environmental technologies.

Their presence strengthened the international character of the event and fostered new collaboration opportunities between Mexico and Italy.

THE VOICE OF OUR PARTICIPANTS

ATTENDEE
JUAN MANUEL JUAREGUI DÁVILA

GESA

"It's great to discover technologies we didn't know existed, ways to make processes more environmentally friendly and comply with regulations. It is essential to come to ECOMONDO MEXICO to learn about technologies, companies, and methods that can help us as an industry make our processes more sustainable."

ATTENDEE
GRACIELA ENRIQUEZ

Perceptos inmobiliarios

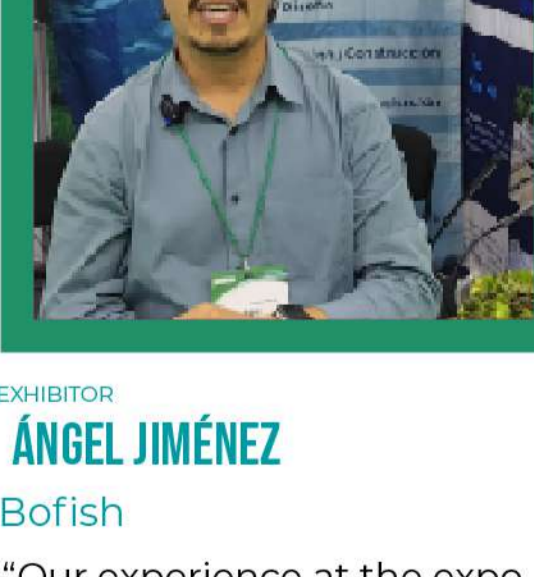

"I'm extremely impressed by the technology presented. It is very up-to-date and highly valuable for us as Mexicans, since we are not as accustomed to this type of technology. It allows us to discover it and learn how to implement it in our business for greater savings."

EXHIBITOR
OSMAREL BUSTOS

Kaesar Compressors

"It was a fabulous experience to be here at ECOMONDO MEXICO. The opportunities are tremendous, and being able to contribute by bringing our technology to the industry was truly a wonderful experience. You have to come."

EXHIBITOR
ÁNGEL JIMÉNEZ

Bofish

"Our experience at the expo was very positive. We generated many qualified leads. It went very well for us, with strong customer attendance that we hope to convert soon."
