THE ENVIRONMENTAL TECHNOLOGY AND  
CIRCULAR ECONOMY EXPO

**APRIL 14 – 16, 2026**

**EXPO GUADALAJARA**

# ECOMONDO RIMINI

A global benchmark in the green  
and circular economy

**ECOMONDO**  
The green technology expo.

The 28th edition was held from November 4 to 7, 2025, in Rimini, Italy, organized by **Italian Exhibition Group**.

**With 28 years of experience**, ECOMONDO has established itself as **Europe's leading trade fair for industrial technologies** and solutions in the green and circular economy.

**More than 1,700 exhibitors and over 100,000 professional visitors from 120 countries** underscore its global reach and strategic relevance.

# MOBILITY OF THE FUTURE

“STRENGTHENING THE PATH TOWARD MORE SUSTAINABLE MOBILITY”

Future mobility represents a transformative paradigm that goes beyond being merely a means of transporting people and goods, becoming instead a comprehensive ecosystem that responds to social, environmental, and economic needs.

**Focusing on efficient vehicles** (electric, hybrid, hydrogen, natural gas), electric micromobility, last-mile solutions, charging infrastructure, sustainable urban planning, mobility apps, and AI for mobility.

# BUYERS

- Logistics and distribution companies
- Public and private transportation operators
- Shared mobility platforms
- Buyers, dealers, and logistics companies
- Urban planning specialists
- Government (municipal, state, and federal)

## EXHIBITORS WE ARE LOOKING FOR:

- 1 Future mobility, transportation, and vehicles**
- 2 Infrastructure and sustainability**
- 3 Mobility services and innovations**
- 4 Electric mobility ecosystem and service providers**

# VISITOR PROFILE
